

CCDC Inject

| | |
|--------------------|----------------------------|
| INJECT NAME | Develop a REGEX Expression |
| INJECT ID | SOCS16T |

INJECT DESCRIPTION:

The IT Support team will need to search a number of logs looking for an Interface with the OFFLINE status. Create a regular expression that matches the word "Interface" followed by the word "OFFLINE" (case-sensitive and with potential whitespace or other characters in between), which the team can use.

INJECT DELIVERABLE

Respond with a business memo that provides the needed REGEX expression. Explain the tokens in the expression as to what they are masking for.
