

CCDC Inject Scoring Rubric

INJECT NAME	Install End-Point Protection
INJECT ID	TOOL22T
MAX SCORE	100

INJECT DESCRIPTION:

On each server and workstation in the topology, install and appropriate end-point protection package.

INJECT DELIVERABLE:

Respond with a clearly written memo that:

- Describes the package used to accomplish this for each OS.
- Provide evidence (screenshots) of the installation and that the package is functional.
- Identify each server/workstation in which the product was installed.
