

INJECT NAME	Interconnect Two Topologies
INJECT ID	REGN20A

INJECT DESCRIPTION:

In order to transfer files between the two topologies, AWS and NetLab, a facility is needed to accomplish this. Evaluate either setting up FTP or other file transfer mechanism or a site-to-site VPN.

INJECT DELIVERABLE

Respond with clearly written business memo which describes the approach taken (file transfer/copy or VPN) and the reason for that choice (skill level, functionality etc..).

Provide evidence of a functioning facility with screen shots.
