CCDC Inject

INJECT NAME	Enable File System Quotas on Linux and Windows Servers
INJECT ID	SVRA03A

INJECT DESCRIPTION:

In order to protect the servers' file systems from being overrun by files placed in the users' home directories, the IT Director would like file system quota's enabled. Do this for both Window and Linux servers.

INJECT DELIVERABLE

Respond with a business memo that describes the steps taken to enable quota's on Windows and Linux servers. Document the installations (Windows and Linux) for each type of server with screen shots and explanations. List all the server that quota's have been implemented on.
